## How do I know which vehicle is right for me?

When selecting a rental vehicle, take into consideration where you will be travelling, how many people will be travelling in the vehicle, luggage size and the kind of driving you intend to do. Auto Europe offer a vast range of vehicles from small economy sizes to larger full-sized cars, 4WDs, convertibles and luxury vehicles. The ACRISS system above will help you find a car that suits your needs. This is an internationally recognised code which will ensure you get the same standard of vehicle wherever you rent.

## Automatic and Manual Transmissions

Both automatic and manual vehicles are available in South Africa. Automatic vehicles are generally more expensive than manual cars and may be scarce at smaller depots.

## Do I need a credit card to collect my vehicle?

Yes. A credit card will be needed when collecting, which will be used for a security bond. The deposit is generally the insurance excess of the rental car which depends on the category of vehicle you have booked and the rate type.

## Collecting at an Airport in South Africa

At most South African airports, rental companies will have a desk in the arrivals hall and vehicles will be located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. Usually a courtesy transfer will be provided from the airport to the depot in this instance. Auto Europe Australia offer all-inclusive prices which generally include any location/airport fees that may otherwise apply. Remember to check at time of booking to ensure your rental price will include all airport fees.

## Min & Max Age Requirements

**Min Driving Age:** Usually 21; however in some regions the minimum age is 25.

**Young Driver's Surcharge:** Drivers aged 21-22 years may be charged ZAR100+ per day, paid locally.

**Max Driving Age:** Maximum driving age in South Africa is generally 75. Usually PAI (Personal Accident Insurance) is only applicable to renters up to 75 years. In some cases, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with Auto Europe for further details.

# Driving in South Africa

## Licence Requirements

A full driving licence is required to drive in South Africa. All drivers must have held a full valid driving licence for a minimum of two years. Australian residents are not required by law to have an international drivers licence, although it is recommended since an international licence holds more credibility with the local traffic police than your home driving licence. Contact your local motoring association for further information.

## Cross Border Fees and One Way Rentals

### **Can I collect my rental car in South Africa and drop it off in another African nation?**

Most suppliers will permit international one ways from South Africa to certain African countries, including Botswana, Lesotho, Namibia and Swaziland. One way fees will apply. One way rentals are not permitted to Mozambique or Zimbabwe. If you plan to leave South Africa with your car hire, please confirm these details with Auto Europe Australia and our consultants will advise of any additional fees or permissions.

### **Can I visit any of the countries surrounding South Africa, and then return my car rental to South Africa?**

Yes, this is possible. In most cases, travel to Botswana, Swaziland, Lesotho and Namibia is permitted, but border crossing will usually incur a fee. Additionally, you must have a letter of authority to cross the border, which you can obtain from your car rental supplier. If you do not have the letter of authority you may be refused entry at the border crossing. Luxury vehicles are not permitted to leave South Africa. Travel is generally not permitted from South Africa to Angola, Malawi, Zambia, Zimbabwe or Mozambique. Auto Europe Australia can advise on regulations for international travel within Africa.

### **Can I collect my rental car in one South African city and drop it off in another South African city?**

Yes. In some cases there may be a one-way fee charged by our suppliers when you collect your rental car. Auto Europe Australia will advise of any additional fees before you travel. In most cases, there are no fees for one way rentals within South Africa.

## How do I extend my rental after I've picked up the vehicle?

Once the car rental has commenced you will have to call the depot where you initially collected the vehicle. If the car is available to be extended, you will be offered additional days at the local rate.

## Should I hire a GPS for driving in South Africa?

GPS hire is available from Auto Europe Australia and delivered directly to your home prior to departure. GPS units can also be requested direct with some suppliers, however this will be at their own rates. If time is short, or you would simply prefer to collect your GPS unit when you pick up your car hire, this may be the best option.

## Driving Rules in South Africa

- Drive on the **left** side of the road and overtake on the right. The driver sits on the right hand side of the car.
- The maximum blood alcohol level is 0.02% and drivers can face hefty fines or imprisonment so be smart, don't drink and drive.
- Although petrol stations are common in South Africa's cities, they may be harder to find in many rural areas. Fill up in cities when you can and keep an eye on the fuel gauge. In certain situations, it may be wise to carry extra petrol.
- Map your route carefully. You may encounter gravel roads in rural area, so proceed with caution, especially if you are unfamiliar with driving in these conditions. Most car rental suppliers will not permit travel on unpaved roads unless you're driving a 4WD. You may confirm these details with Auto Europe.
- Traffic lights are known as "robots". Be careful at traffic lights even if they are green. Some drivers will jump the opposite red light so check for other traffic before moving again.
- Don't feed animals from your car – baboons are quite common along Cape Town's scenic routes.
- Keep your headlights on during the day, especially on country roads.
- Current information on road conditions can be obtained from the [Automobile Association of South Africa](#).
- It is compulsory to carry your driving license with you at all times in South Africa.
- South African petrol stations are not self-help: an attendant will fill the car. When it comes to paying for fuel, you can pay cash or use your credit card.
- At traffic lights, a continuous red arrow on the left means that you are able to turn in that direction as long as there is no other traffic in that direction. A continuous green arrow means that you are able to proceed with caution in that direction.
- It is illegal to use a mobile phone while driving.
- Wearing a seat belt is compulsory for all passengers.
- Although child safety seats are not legally required, they are strongly recommended for children's safety.

## Parking in South Africa

Parking spaces are relatively uncommon in South African cities, and often there will be parking attendants present who sell parking tickets. A solid yellow line means no parking; a solid red line means no stopping. You must park with the front of the car facing the same direction as the flow of traffic. Heavy fines will result from illegal parking.

# Rental Vehicle Insurance

South African law requires all vehicles to have Compulsory Third Party (CTP) insurance, although your car rental supplier should already have comprehensive insurance covering the vehicle. In the case of an accident it must be reported to the insurance provider immediately and an excess will be due.

Car hire companies in South Africa will normally include:

- **Third Party Insurance and Compulsory Insurance:** This will be included in your car hire price. This covers other people's injury and any damage to their vehicle.
- **Collision Damage Waiver (CDW):** This limits your financial liability for damage to the rented vehicle and is normally included in prepaid car hire prices. Rentals are usually subject to liability excess, which can be reduced at the time you collect your rental car or by taking out **Auto Europe Excess Refund Insurance**.
- **Theft and Loss Cover:** This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental price.
- **Liability Insurance:** This limits your financial liability for bodily injury or death, and is normally included in the prepaid car hire price.
- **Personal Accident Insurance:** This covers the driver for personal injuries and is generally not included in your car rental rate. It is considered an optional extra that you can take out upon collection of the car.

## Auto Europe Excess Refund Insurance

When renting a vehicle, the rental rates include basic insurance. However, in the event that the vehicle is stolen or accidentally damaged, there is usually an insurance excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for Auto Europe Excess Refund Insurance which will offer a reimbursement for the supplier's damage and theft excess to a maximum for AU\$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in case of an accident. To find out more, simply call Auto Europe on 1300 656 601 or visit the [Auto Europe website](#).

*The Auto Europe Hire Car Excess Refund Insurance is managed by Accident & Health International Underwriting Pty Limited, ABN 26 053 335 952, AFSL 238261 and underwritten by CGU Insurance Limited, ABN 27 004 478 371, AFSL 238291.*

# Money Matters

## Money Matters

### Currency

The South African Rand (ZAR, symbol R) is the local currency. Notes come in denominations of R200, 50, 20 and 10, and coins are in R5, 2 and 1, as well as 50, 20, 10 and 5 cents.

### Currency Exchange

Foreign currency can be exchanged at Bureau de Change at international airports and major city centres, as well as banks, post offices and some hotels. Visitors are restricted to bringing in and taking out a maximum of R5,000 in cash.

### Banking Hours

Banks are open from Monday to Friday from 9.00am until 3.30pm, and 8.30am to 11.00am on Saturday.

### ATMs

ATMs are found in most cities and should accept any Cirrus or Maestro card as well as major debit and credit cards. South African bank ATMs will not charge any additional fees. For safety, try to always use indoor ATMs and make sure no one is looking on while you complete your transaction as scams are fairly common.

### Credit Cards

American Express, Visa and MasterCard are all widely accepted across South Africa. Almost all hotels, shops and restaurants, as well as national parks and games reserves, will accept credit cards.

### Tax

Value Added Tax (VAT) is a mandatory 14% tax on most goods and services in South Africa. Foreign passport holders may claim back the VAT on products valued over R250 that were purchased in South Africa and are being taken out of the country.

### Tipping

Tipping is a common practice at restaurants and gas stations (which are full service) in South Africa. 10% of the total cost is the standard acceptable percentage. Tipping porters, valet and other such service workers is also expected in South Africa.

# Stay Healthy & Stay Safe

## Stay Healthy

South African medical facilities are good in most urban areas, but often limited in rural regions. The Australian Government does not have a reciprocal health care agreement with the Government of South Africa. Make sure that you have comprehensive medical insurance that includes cover for medical evacuation costs. Before visiting South Africa, you may need vaccinations and medications for vaccine-preventable diseases. For more information regarding your vaccination requirements, visit [www.smarttraveller.gov.au](http://www.smarttraveller.gov.au).

Malaria is a serious disease that can be contracted from the bite of an infected mosquito. Most parts of South Africa are malaria free, however it is present in some areas. You can avoid contracting malaria by taking a prescription anti-malarial drug from your GP before you travel, using insect repellent and sleeping in air conditioned rooms or using a mosquito net. The rate of HIV/AIDS in South Africa is high, so ensure that you exercise the appropriate precautions if participating in any sexual activity. Tap water is safe to drink in major cities, though it is advised to consume only bottled water or boiled tap water and avoid ice cubes in rural areas. There is the risk of infection of schistosomiasis or bilharzia so avoid swimming or paddling in stagnant or slow moving water.

## Stay Safe

Most regions of South Africa are relatively safe to travel, but there are some regions that should be avoided. Be aware of card skimmers at ATMs. Try to avoid driving at night and don't leave valuables in plain sight, even when you're in the vehicle, as smash and grab attacks have been known to occur. In the event of theft or loss, be sure to inform your credit card companies as soon as you discover your wallet has been lost or stolen. Most credit card companies have toll free numbers to call and they may be able to issue an emergency replacement card or wire you an immediate cash advance. It is advisable to notify your bank and credit card companies of your destination prior to leaving Australia, and keep photocopies of important documentation, including credit cards, in a separate location.

While travelling, practice the same safety precautions you employ at home. In case of emergency, dial 10177 for an ambulance and 10111 for a fire or police.
