Do I need a credit card?

Yes. A credit card will be needed when collecting the vehicle and will be used for a security bond. The deposit is generally the insurance excess of the rental car, which depends on the category of vehicle you have booked and the rate type.

Automatic and Manual Transmissions

Both automatic and manual vehicles are available in Spain. Automatic vehicles are generally more expensive and may be more scarce at smaller depots.

Collecting at an Airport in Spain

At most Spanish airports you will find your rental company has a desk in the arrivals hall, with the rental cars located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. A courtesy transfer will be provided from the airport to the depot in this instance. Auto Europe offer all-inclusive prices which generally include any location / airport fees and charges that may otherwise apply. Remember to check at the time of booking to ensure your rental will include all airport fees.

Can I collect my rental car in one Spanish city and drop it off in another Spanish city?

Yes, this is certainly possible. In some cases there may be a one-way fee charged by our suppliers when you collect your rental. Auto Europe will advise of any additional fees before you travel. In most cases, there are no fees for one way rentals within Spain.

Motorhome Rental

Enjoy the convenience of accommodation and transport in one. Auto Europe offers 2 - 6 berth vehicles, with collection points at Barcelona, A Coruna, Cartagena, Madrid, Gijon, Girona, Lugo, Malaga, San Sebastian, Seville and Tarragona. Explore some of the most scenic camping grounds Spain has to offer.

Rental Vehicle Insurance

Rental Vehicle Insurance

Spanish law requires all vehicles to have compulsory third party (CTP) injury insurance, although your car rental supplier should already have comprehensive insurance covering their cars. In the case of an accident, it must be reported to the insurance provider immediately and an excess will be due.

Car Rental Companies in Spain will normally include:

Third Party Insurance and compulsory insurance will be included in your car hire price. This covers you for other people's injury and damage to their vehicle.

Collision Damage Waiver (CDW): This limits your financial liability for damage to the rented vehicle and is normally included in prepaid car hire prices. Rentals are normally subject to liability excess, which can be reduced at the time you collect your rental car or by taking out **Auto Europe Excess Refund Protection**.

Theft and Loss Cover: This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental price.

Fire and Liability: Limits your financial liability for bodily injury or death, and is normally included in the prepaid car hire price.

Personal Accident Insurance: This covers the driver for personal injuries and is generally not included in your car rental rate. It is considered an optional extra that you can take out upon collection of the car.

Auto Europe Excess Refund Protection

When renting a vehicle, the rental rates include basic insurance. However, in the event that the vehicle is stolen or accidentally damaged, there is usually an excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for Auto Europe Excess Refund Protection which will offer a reimbursement for the supplier's damage and theft excess to a maximum for AU\$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in case of an accident. To find out more, simply call Auto Europe on 1300 656 601 or visit the [Auto Europe website](#).

Auto Europe has procured an insurance policy covering our financial exposure to this Car Hire Excess Refund Protection through syndicate underwriters at Lloyd's of London.

Driving Laws in Spain

- Drive on the RIGHT hand side of the road. The driver sits on the left hand side of the car.
- Do not park in areas painted yellow on the pavement, curb or where a no parking sign is displayed. In major cities, parking spaces marked blue on the pavement are metered parking, spaces marked with yellow are no parking. Before parking your vehicle, make sure to check for signage nearby, otherwise you may be left with a parking infringement and/or your car towed. Double parking is also illegal within Spain.
- On almost all motorways you will pay a toll, depending on the distance. Pick-up a machine-dispensed ticket upon entering the motorway, then pay on exit; don't lose the ticket or you will pay the maximum fee. Choose your lane to pay by person or machine with a credit card.
- At roundabouts, signs will indicate that traffic on the roundabout has priority. If there is no sign then the traffic entering the roundabout has priority. Give way to traffic from your left unless otherwise signed.
- Having headphones in your ears is banned, with the exception of hearing aids.
- It is illegal to wear sunglasses in a tunnel.
- Laws are strict on the use of indicator lights, make sure to use your indicators when overtaking and turning or you run the risk of getting fined.
- Drink driving is a very serious offence. The limit is 0.05%. Exceeding this will incur severe penalties including imprisonment or confiscation of your licence.
- Mobile phones cannot be used while driving, even when pulled to the side. You must park completely away from any traffic before using your phone.
- Pedestrians and cyclists have the right of way.
- In case of a breakdown, all vehicles must be equipped with two (2) warning triangles and a reflective jacket that must be worn when outside the vehicle and the triangles placed 30 metres in front of and behind the vehicle. This should be provided with your rental car.
- Unless otherwise specified, the speed limits are 75 mph (120km/h) on toll motorways, 68 mph (110 km/h) on open roads, 31 mph (50 km/h) in built-up areas and cities.
- Children under 12 years of age or under 135 cms in height must be seated in an appropriate child seat.

Parking

In Spain, various types of signs are used to indicate parking restrictions. Some areas employ alternate side parking, meaning parking is only allowed on one side of the road depending on the date. Signs marked 1-15 or 16-31 mean you cannot park on that side between those dates. On one way streets, parking on the left only.

Pay-and-display machines are common throughout Spain. Parking is free on Sundays and public holidays, unless otherwise indicated.

Min & Max Age Requirements

Min Driving Age: Usually 21 years depending on the supplier and vehicle type.

Young Driver Surcharge: Drivers aged 21-24 years may be charged a fee of €18.08/day, with a maximum fee of €175.20 per rental.

Max Driving Age: The majority of locations in Spain do not have a maximum driving age, however there may be restrictions for drivers aged 70-75 in some regions. In some cases, aged drivers may be required to hold a letter from their GP stating they are healthy and fit to drive. Check with Auto Europe for further details.

Licence Requirements

A full driving licence is required to drive in Spain. All drivers must have held a full valid driving licence for a minimum of one year. Australian residents are required by law to have an international drivers licence. Contact your local motoring association for further information. Carry your driver's licence with you when you travel, as some authorities may not recognise the international driver's licence and could ask for additional confirmation of your licence.

Cross Border Fees and One Way Rentals

Travelling between Spain and other European countries:

International one way trips are definitely possible. However, as with any international one way, this will incur a one way fee. Prices vary depending on the supplier, the length of the rental and the drop off destination.

Can I collect my car in Spain, visit another European city, then return it to Spain?

Travel is certainly possible to visit surrounding mainland European countries. There will be restrictions on travel to Northern European countries in winter, so advise Auto Europe when you make your car hire booking if you're considering travel to these countries. On your arrival taste some of Málaga's finest wines or climb the steps of the Gibralfaro castle. When you are back on road, hop onto the E-15/A-7, and travel along the coast for approximately 50km. On the A-7 towards Algeciras, take exit 110B, continue along the A-381 for 90km, 20km on the AP-4 and then 9km on the N-443. A city that is dedicated to its bustling port, Huelva is a pleasant city with many great monuments, attractive plazas, and without a doubt splendid seafood! There is also a considerable amount of history marked upon this city, from the Plaza de las Monjas, to its very own sprawling industrial port.

Stay Healthy & Stay Safe

Stay Healthy

Spain's water quality is quite good and drinkable in some major cities, however it is recommended that you keep to bottled water. When eating out try and avoid undercooked meat or fish as some fish may contain toxins or bacteria. Also, stay away from unpasteurized milk as this can contain micro-organisms that may cause disease or infection.

Sunscreen is highly recommended as Spain reaches very high temperatures in the summer months (June-August).

Hospitals in Spain are well maintained and can be easily accessed in major cities. It is advisable to obtain travel insurance prior to traveling outside of Australia. For a medical emergency in Spain, call the **European Emergency Number: 112**.

Stay Safe

Spain is a safe country to visit, but travellers should watch out for petty theft. Scamming is a common method for thieves in Spain and motorists are sometimes targeted for such scams. Remain vigilant, but do not let it ruin your trip. Exercise usual safety precautions when you travel and keep your passport and valuables safely locked away.

Many beaches in Spain have beach-safety flags. They are coded as follows:

Green: Safe to Swim

Yellow: Use caution and stay close to the shore

Red: Do not swim – dangerous water conditions

Animals are not allowed on beaches. First Aid can be found with a Red Cross posted along the beach. Keep a close eye on your belongings and use lockers or a cloak room if available.

Police

Call 112 for Police, Ambulance or Fire Service.

ATMs

ATMs (automatic teller machines) are located in almost all towns and cities, especially in most banks and accept major credit and debit cards. While Spanish ATMs will usually give you the option to transact in your home currency, it is wise to transact in euro to avoid higher exchange rates.

Credit & Debit Cards

Major credit and debit cards should be accepted throughout Spain, though some businesses have systems that are out of date and may not accept foreign cards. Contact your credit card company immediately if your credit card is lost or stolen.

Tax

In Spain, a value-added tax (VAT) also known as IVA (impuesto sobre el valor añadido) of 21% is applied on goods and services. Visitors who make purchases over €90,16 are entitled to a refund of the 21% VAT from any shop if they are taking them out of Europe within three months of purchase. To apply for the refund ask the shop for a cash back refund form (or similar) & present to the customs booth at the airport, port or border for a VAT refund.

Tipping

Tipping is not normally expected, except for around tourist areas where a service charge may be added to the bill. Locals tend to leave small change, generally around 5% when dining at restaurants.
